Why Student Accident Insurance is more important than ever!

Protecting the health and welfare of students is a concern that all school administrators (public K-12 school districts, diocese, nursery and daycare centers, etc) face each and every day. Student Accident Insurance helps ease those concerns by providing benefits for injuries that occur during school hours and or school sponsored and supervised activities (i.e. athletics, gym class, playground, field trips, JROTC, etc). Student accident insurance serves to reduce or completely eliminate any out of pocket expenses not paid by primary coverage including copays, deductibles, coinsurance, etc, and will pay on a primary basis in the absence of other collectible coverage. With the increasing trend of high deductible plans, and more of the cost share shifted to the insured, Student Accident Coverage has become more important than ever!

Other important reasons for schools to provide Student Accident Insurance coverage include:

- Helps decrease the type of claims submitted to the school's General Liability policy often resulting in reduced premiums.
- The implementation of a Student Accident Insurance Plan may make the institution eligible for General Liability premium discounts.
- Helps shield schools from being sued as a result of student injuries.
- Provides protection when parents do not have health insurance coverage.
- Helps foster a healthy learning environment.
