DELAWARE INTERSCHOLASTIC ATHLETIC ASSOCIATION

Parents/Guardian: The DIAA pre-participation physical evaluation and consents form is a five page document. Pages one, two and four require your signature while page five is a reference for you to keep. This physical evaluation must be completed after April 1 of the current year playing sports and runs through June 30 of the following year.

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).

PROTECT YOUR ATHLETIC ELIGIBILITY

YOU ARE **NOT** ELIGIBLE:

- 1. If you attend a high school and become 19 years of age before June 15 immediately preceding that school year. (Reg. 1009.2.1.1)
- 2. If you attend a junior high/middle school that terminates in the 8th grade and become 15 years of age before June 15 immediately preceding that school year. (Reg. 1008.2.1.1.1)
- *3. If you are not legally enrolled at the school which you represent. (Reg. 1008.2.3.1 and Reg. 1009.2.3.1)
- 4. If you are not residing with your custodial parent(s), court appointed legal guardian(s), Relative Caregiver, or are a student 18 years of age or older and living in the attendance zone of the school you attend unless you are participating in the Delaware School Choice Program, attend a private school or are a boarding school student. IF YOUR CUSTODIAL PARENT(S), LEGAL GUARDIAN(S) OR RELATIVE CAREGIVER(S) RELOCATES TO A DIFFERENT ATTENDANCE ZONE, YOU MUST NOTIFY YOUR ATHLETIC DIRECTOR IMMEDIATELY. (Reg. 1008.2.2.1 and Reg. 1009.2.2.1)
- *5. If you were absent unexcused or absent due to illness or injury; have been suspended (in-school or out-of-school); or have been assigned to homebound instruction or an alternative school for disciplinary reasons. (Reg. 1008.2.3.4 and 1008.2.3.5 Reg. 1009.2.3.5 and 1009.2.3.6)
- 6. If you failed to complete the preceding semester for reasons other than personal illness or injury. (Reg. 1008.2.3.6; Reg. 1009.2.3.7)
- *7. If you do not pursue a regular course of study and pass at least five credits per marking period (equivalent of four credits in junior high/middle school), two credits of which must be in the areas of Mathematics, Science, English, or Social Studies. **IF YOU ARE A SENIOR, YOU MUST PASS ALL COURSES WHICH SATISFY AN UNMET GRADUATION REQUIREMENT.** (Reg. 1008.2.6.; Reg. 1009.2.6.1)
- 8. A student who has previously participated in interscholastic athletics that transfers more than one time during their first year of eligibility shall be ineligible in any sport for a period of ninety (90) school days commencing with the first day of official attendance in the receiving school. The period of ineligibility shall continue to the next grade/school year until 90 school days have passed.
- 9. If you transfer after the first day of school of your second year of high school, you are ineligible to participate in any sport you previously participated in for a period of one school year (Reg. 1009.2.4)
- 10. If you participated in the Delaware School Choice Program during the previous academic year and transferred to your "home school" for the current academic year without completing your two-year commitment or receiving a release from the sending school. (Reg. 1008.2.3.3; Reg. 1009.2.3.4)
- 11. If you participated in the Delaware School Choice Program during the previous academic year and transferred to another "choice school" for the current academic year unless you are playing a sport not sponsored by the sending school. (Reg. 1008.2.4.6.1; Reg. 1009.2.4.7.1)
- 12 If you reached the age of majority (18), occupied a residence in a different attendance zone than your custodial parent(s) or court appointed legal guardian(s), and have not been in regular attendance at your receiving school for at least 90 school days unless you are participating in the Delaware School Choice Program and your application was properly submitted prior to your change of residence. (Reg. 1009.2.2.1.7)
- 13. If you attend a high school and more than four years has elapsed since you first entered 9th grade, or more than five years has elapsed since you just entered 8th grade in schools with 8th grade eligibility for high school sports. (Reg. 1009.2.7.1 and 2.7.2.1)
- 14. If you attend a junior high/middle school in which only grades 7-8 are permitted to participate in interscholastic athletics and more than two years has elapsed since you first entered 7th grade. (Reg. 1008.2.7.1)
- 15. If you attend a junior high/middle school in which grades 6-8 are permitted to participate in interscholastic athletics and more than three years has elapsed since you first entered 6th grade. (Reg. 1008.2.7.2)
- 16. If you have played on or against a professional team or have accepted cash or a cash equivalent (savings bond, certificate of deposit, etc.); a merchandise item(s) with an aggregate retail value of more than \$150; a merchandise discount; a reduction or waiver of fees; a gift certificate or other valuable consideration for athletic participation. (Reg. 1009.2.5.1.4 and 2.5.1.5)
- 17. If you have used your athletic status to promote a commercial product or service in an advertisement or personal appearance. (Reg. 1009.2.5.1.7)
- 18. If you have not received a physical examination from a licensed physician (M.D. or D.O.), a certified nurse practitioner or a certified physician's assistant on or after **April 1** and written consent from your custodial parent(s) or court appointed legal guardian(s) to participate in interscholastic athletics is not on file in the school office. (Reg. 1009.3.1.1.1 and Reg. 1008.3.1.1)
- 19. If you participate in an all-star game not approved by DIAA before you graduate from high school. (Reg. 1009.5.4)
- 20. If you are a foreign exchange student not participating in a two-semester program listed by the Council on Standards for International Educational Travel (CSIET). (Reg. 1009.2.8.1.2)
- 21. If you are an international student not in compliance with all DIAA regulations including Reg. 1009.2.2 residency requirements. (Reg. 1009.2.8.2)

*IF YOU ARE NOT IN COMPLIANCE WITH THESE REQUIREMENTS, YOU MAY NOT TRY-OUT,PRACTICE, SCRIMMAGE OR PLAY IN A GAME.

NOTE: Consult with your coach, athletic director, or principal for information concerning additional eligibility requirements.

Delaware Interscholastic Athletic Association Parent/ Player Concussion Information Form

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a "ding" or a bump on the head can be serious. You can't see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following: Signs observed by teammates, parents and coaches may include:

Headaches Pressure in head Nausea or vomiting Appears dazed Vacant facial expression
Neck pain Balance problems Dizziness Confused about assignment Forgets plays
Disturbed vision Light/noise sensitivity Sluggish Unsure of game/score etc Clumsy

Figure for each Department of the property of the propert

Feeling foggy Drowsiness Changes in sleep Responds slowly Personality changes
Amnesia "Don't feel right" Low energy Seizures Behavior changes
Sadness Nervousness Irritability Loss of consciousness Uncoordinated

Confusion Repeating questions Concentration problems Can't recall events before or after hit

What can happen if my child keeps on playing with a concussion or returns to soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one (second impact syndrome). This can lead to prolonged recovery, or even to severe brain swelling with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for the student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. You should also inform your child's coach if you think that your child may have a concussion Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information from the CDC on concussions you can go to:

http://www.cdc.gov/concussion/HeadsUp/youth.html

For a current update of DIAA policies and procedures on concussions you can go to:

http://www.doe.k12.de.us/infosuites/students_family/diaa/

For a free online training video on concussions you can go to:

http://www.nfhs.org/education.aspx

All parents and players must sign the signature portion of the PPE indicating they have read and understand the above.

Adapted from the KHSAA, CDC and 3rd International Conference on Concussion in Sport, 4/2011

SUDDEN CARDIAC ARREST AWARENESS FORM

Revised August 2013

Name of Student:	
 What is Sudden Cardiac Arrest? Occurs suddenly and often without warning. An electrical malfunction (short-circuit) causes the bottom chambers of the heart (ventricles) to beat dangerously fast (ventricular tachycardia or fibrillation) and disrupts the pumping ability of the heart. The heart cannot pump blood to the brain, lungs and other organs of the body. The person loses consciousness (passes out) and has no pulse. Death occurs within minutes if not treated immediately. 	
 What causes Sudden Cardiac Arrest? ➤ Conditions present at birth (inherited and non-inherited heart abnormalities) ➤ A blow to the chest (Commotio Cordis) ➤ An infection/inflammation of the heart, usually caused by a virus. (Myocarditis) ➤ Recreational/Performance-Enhancing drug use. ➤ Other cardiac & medical conditions/Unknown causes. (Obesity/Idiopathic) 	
 What are the symptoms/warning signs of Sudden Cardiac Arrest? Fainting/blackouts (especially during exercise) Dizziness Unusual fatigue/weakness Chest pain Shortness of breath Nausea/vomiting Palpitations (heart is beating unusually fast or skipping beats) Family history of sudden cardiac arrest at age < 50 ANY of these symptoms/warning signs may necessitate further evaluation from your physician before returning to practice or a game. 	re
 What are ways to screen for Sudden Cardiac Arrest? ➤ The American Heart Association recommends a pre-participation history and physical including 12 important cardiac elements. The DIAA <u>Pre-Participation Physical Evaluation - Medical History</u> form includes ALL 12 of these important cardiac elements and is mandatory annually. ➤ Please answer the heart history questions on the student health history section of the DIAA PPE carefully 	
For more information: Contact you primary care physician and go to the American Heart Association website at www.heart.org
